Combined Form of:

Local Government Board's Prescribed List of Expenses for 1907-8

Receipts of Medical Officers

Invoices

Tenders

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which provides that any debt claim, or demand which is lawfully incurred or payable out of the public moneys shall be paid within the half year in which the same was incurred or became due, or within three months after the expiration of such half year.

HARRIS & COMPANY, LTD.

7, 8, 9, & 10, DAME STREET, AND 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, DAME COURT, DUBLIN.

Handwritten notes and signatures at the bottom left of the page.

(To be strictly adhered to by all persons concerned.)

The forms are printed on white and blue paper. They are to be used only by the Medical Officer, and the Clerk only by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on blue paper, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (white form) to the Clerk of the Union, retaining the other copy (blue) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following *three months*, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reasons why none of the articles on the Prescribed List are suitable to the case. Details of estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

No.	Name of Article	Quantity	Unit	Price	Total	Remarks

Local Government Board's Proposed List of Rates for 1927-8

Regulation of Medical Officers

Income

Tender

The attention of Contractors and Clerks of Unions is specially directed to Sec. 61 (7) of the Local Government (1) Act, 1926, which requires that every debt, claim or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HILLYS, LIMITED.

Commissioners for Public Works.

7, 25, 29, & 30, DAME STREET, AND 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 26, 27, 28, 29, 30, DAME STREET, DUBLIN.

Handwritten: 707
OK 15 May 1927

INSTRUCTIONS

(To be strictly adhered to by all persons concerned.)

The forms are printed on *white and on blue paper*. The *white* is to be used only by the Medical Officer, and the *blue only* by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the *white* forms by filling in column 4 and signing the Certificate A at the foot thereof on the *two* forms, and shall transmit *both* documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, *on blue paper*, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer *on the same day that the articles are despatched*.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (*white form*) to the Clerk of the Union, retaining the other copy (*blue*) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. *The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.*

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following *three months*, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

N.B.—The Medical Officer may requisition the Tablets, Tablets or Serums of any well-known manufacturer of such articles, whose name must be specified above; but only those drugs which appear in the above list can be ordered. The several drugs must be supplied in the proportions specified above. Packages must bear the original labels of the manufacturer. The Medical Officer may order serum when required direct from the Contractor by letter or telegram, but must as soon as possible submit to the Board of Guardians a formal requisition in confirmation of order, so that the account may be paid in due course and recoupment allowed.

TO THE BOARD OF GUARDIANS OF
UNION

I do hereby propose to supply punctually for the use of the Workhouse and several Dispensary Depots within the Union, from the day of _____ to the day of _____, the Medicines, contained in the Prescribed List in this Form, when ordered by the Guardians, of the best description and quality, prepared in strict accordance with the several formulæ in the latest edition of the British Pharmacopœia, and with the standards for Pharmacopœial preparations laid down by the Local Government Board; at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles mentioned herein, purchased during the year; and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And further propose to supply the Medicines by Avoirdupois Weight as hereunder mentioned; all volatile drugs to be supplied in stoppered bottles. I also propose and agree to supply (free of charge save as hereinafter mentioned) all packages, hampers, jars, bottles (which shall be those ordinarily used in the wholesale drug trade and priced in the Schedule on p. 15), and other vessels in which the drugs and medicines are contained, and to take back such articles when empty, and pay all reasonable packing and transit expenses incurred in respect of the return of such empties, and to take all risk of breakage in transit; provided however that when such empties are not returned by the Guardians within six months from the date at which the same, containing the drugs or medicines, shall have been delivered to them, I shall be entitled to and shall receive payment for the same from the Guardians in accordance with the schedule of prices submitted therewith. And I further agree, immediately on being declared Contractor, to execute the form of Contract and Bond prescribed by the General Order of the Local Government Board for Ireland, and to obey the regulations of the said Board so far as they relate to the contract and supply of drugs.

Your obedient Servant,

Signature, { _____

Dated this _____ day of _____ 190 _____

GENTLEMEN,

Should you accept the above proposal, we hereby engage to become bound with the above named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

MEDICINES, 1907-8.

Combined Form 27:

Local Government Board's Prescribed List of Medicines for 1907-8.

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HILLY'S LIMITED

CONTRACTORS TO PUBLIC BODIES,

27, 28, 29, & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN.

1907.

INSTRUCTIONS

(To be strictly adhered to by all persons concerned)

The forms are printed on white and on blue paper. The white forms are used only by the Medical Officer, and the blue only by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on blue paper, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (white form) to the Clerk of the Union, retaining the other copy (blue) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following three months, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be delayed entirely out of the rates.

1907-8.

N.B.—The Medical Officer may requisition the Tablets, Tablets or Serums of any well-known manufacturer of such articles, whose name must be specified above; but only those drugs which appear in the above list can be ordered. The several drugs must be supplied in the proportions specified above. Packages must bear the original labels of the manufacturer. The Medical Officer may order serums when required direct from the Contractor by letter or telegram, but must as soon as possible submit to the Board of Guardians a formal requisition in confirmation of order, so that the account may be paid in due course and recoupment allowed.

MEDICINES, 1907-8.

Contract form of:

Local Government Board's Prescribed List of Medicines for 1907-8.

Requisition of Medical Officer

Invoice

Tender

806

The attention of Contractors and Clerks of Unions is specially directed to Sec. 61 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HILLY'S LIMITED.

Contractors in Public Works.

27, 28, 29, & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN.

1907.

INSTRUCTIONS

(To be strictly adhered to by all persons concerned)

The forms are printed on white and on blue paper. The white is to be used only by the Medical Officer, and the blue only by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on blue paper, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (white form) to the Clerk of the Union, retaining the other copy (blue) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following three months, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

N.B.—The Medical Officer may requisition the Tablets, Tableoids or Serums of any well-known manufacturer of such articles, whose name must be specified above; but only those drugs which appear in the above list can be ordered. The several drugs must be supplied in the proportions specified above. Packages must bear the original labels of the manufacturer. The Medical Officer may order serum when required direct from the Contractor by letter or telegram, but must as soon as possible submit to the Board of Guardians a formal requisition in confirmation of order, so that the account may be paid in due course and recoupment allowed.

FORM OF TENDER
TO THE BOARD OF GUARDIANS OF
UNION

GENTLEMEN,
I, _____ of _____
do hereby propose to supply punctually, for the use of the Workhouse and several
Dispensary Districts within the _____ Union,
from _____ day of _____, 190____, to the _____ day
of _____, 190____, the Medicines contained in the
Prescribed List in this Form, when ordered by the Guardians of the best
description and quality, prepared in strict accordance with the several standards in
the latest edition of the British Pharmacopoeia, and with the standards for
Pharmacopoeial preparations laid down by the Local Government Board, at the
prices prescribed by the Local Government Board, less an abatement of _____
per cent. on the gross cost of the articles mentioned herein, purchased during the
year; and to deliver the articles at the Workhouse and respective Dispensaries
and Dispensary Depots within the Union, in such quantities and at such times as
the Guardians may direct, free of carriage, or any additional charge for delivery.
And further propose to supply the Medicines by Avoirdupois Weight as hereunder
mentioned; all volatile drugs to be supplied in stoppered bottles. I also propose
and agree to supply (free of charge save as hereinafter mentioned) all packages,
hampers, jars, bottles (which shall be those ordinarily used in the wholesale
drug trade and priced in the Schedule on p. 16), and other vessels in which the drugs
and medicines are contained, and to take back such articles when empty and pay all
reasonable packing and transit expenses incurred in respect of the return of such
empties, and to take all risk of breakage in transit; provided however that where any
such empties are not returned by the Guardians within six months from the date
at which the same, containing the drugs or medicines, shall have been delivered
to them _____ shall be entitled to and shall receive payment for the same from
the Guardians in accordance with the schedule of prices submitted herewith.
And _____ further agree, immediately on being declared Contractor, to
execute the form of Contract and Bond prescribed by the General Order of the Local
Government Board for Ireland, and to obey the regulations of the said Board so far
as they relate to the contract and supply of drugs.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____, 190____.

GENTLEMEN,

Should you accept the above proposal, we hereby engage to become bound
with the above-named _____ in the sum
of £ _____, sterling, for the due performance of the several
matters and things contained in this Tender.

Signatures of
of
Sureties.

MEDICINES, 1907-8.

Combined Form of:—

Local Government Board's Form List of Medicines for 1907-8.

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HEELY'S LIMITED,

CONTRACTORS TO PUBLIC BODIES,

27, 28, 29, & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN.

1907.

INSTRUCTIONS

(To be strictly adhered to by all persons concerned.)

The forms are printed on white and on blue paper. The white forms to be used only by the Medical Officer, and the blue only by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on blue paper, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (white form) to the Clerk of the Union, retaining the other copy (blue) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following *three months*, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

FORM OF TENDER
TO THE BOARD OF GUARDIANS OF
UNION

GENTLEMEN,

do hereby propose to supply punctually, for the use of the Workhouse and several Dispensary Districts within the Union, from _____ day of _____ to the _____ day of _____, the articles contained in the Prescribed List in this Form, when ordered by the Guardians, of the best description and quality, prepared in strict accordance with the several formulae in the latest edition of the British Pharmacopoeia, and with the standards for Pharmacopoeial preparations laid down by the Local Government Board, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles mentioned herein, purchased during the year; and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And further propose to supply the Medicines by Avoirdupois Weight as hereunder mentioned; all volatile drugs to be supplied in stoppered bottles. _____ also propose and agree to supply (free of charge save as hereinafter mentioned) all packages, hampers, jars, bottles (which shall be those ordinarily used in the wholesale drug trade and priced in the Schedule on p. 15), and other vessels in which the drugs and medicines are contained, and to take back such articles when empty and pay all reasonable packing and transit expenses incurred in respect of the return of such empties, and to take all risk of breakage in transit; provided however that where any such empties are not returned by the Guardians within six months from the date at which the same, containing the drugs or medicines, shall have been delivered to them _____ shall be entitled to and shall receive payment for the same from the Guardians in accordance with the schedule of prices submitted herewith. And _____ further agree, immediately on being declared Contractor, to execute the form of Contract and Bond prescribed by the General Order of the Local Government Board for Ireland, and to obey the regulations of the said Board so far as they relate to the contract and supply of drugs.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____ 190 _____

GENTLEMEN,

Should you accept the above proposal, we hereby engage to become bound with the above-named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

MEDICINES, 1907-8.

Combined Form of:—

Local Government Board's Prescribed List of Medicines for 1907-8.

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HELY'S LIMITED.

Contractors to Public Bodies,

27, 28, 29, & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN.

1907.

ASB

INSTRUCTIONS

(To be strictly adhered to by all persons concerned.)

The forms are printed on white and on blue paper. The white is to be used only by the Medical Officer, and the blue only by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on blue paper, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (white form) to the Clerk of the Union, retaining the other copy (blue) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following three months, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

N.B.—The Medical Officer may requisition the Tablets, Tabloids or Serums of any well-known manufacturer of such articles, whose name must be specified above; but only those drugs which appear in the above list can be ordered. The several drugs must be supplied in the proportions specified above. Packages must bear the original labels of the manufacturer. The Medical Officer may order serum when required direct from the Contractor by letter or telegram, but must as soon as possible submit to the Board of Guardians a formal requisition in confirmation of order, so that the account may be paid in due course and recoupment allowed.

(A) I certify that the quantities stated in column 4 are required to be ordered for use in the

Workhouse (or)
Hollymount Dispensary District.
Signed, J. J. Haurahan Medical Officer.
Date 28 of April 1907.

(B) Mr. B. Sumner please supply the Quantities named in col. 4 of the above form.

Approved by the Board of Guardians of Rathmore Union, this 5th day of May 1907.
Signed, John Lynch Presiding Chairman.
John Lynch Clerk of Union.

(D) I have carefully compared the Medicines delivered at the Hollymount Workhouse (or) Hollymount Dispensary on the 22nd of May 1907 with the quantities requisitioned and charged for as per cols. 4 and 5, and the articles set forth therein have been duly received at the Dispensary, and they are correct in quantity and weight with the Requisition. (If not correct state exceptions here, and whether deficiency subsequently made good.)

Gross Cost £	10	8	10	1
Discount @	3	13	1	1
Net Amount £	6	15	9	11 5

(C) I have this day supplied to the
Workhouse (or)
Dispensary District.

For B. Sumner & Co. Ltd.
the quantities named in column 5 of the above form.
Signed, W. J. O'Connell Controller.

Address, _____
Date _____ of _____ 1907.

and the following supplies have been selected therefrom, and transmitted to the Workhouse on May 1907.

129	1/2 oz. bottle	10/3
247	1/2 oz. bottle	2/9
316	1/2 oz. bottle	4/6

Signed J. J. Haurahan
Medical Officer of
(or Compounder of Medicines)

Hollymount Union Workhouse
(or)
Dispensary District.

Date 28th of May 1907.

Analyst's Certificate No. 31124

(E) I certify that I have carefully checked the quantities requisitioned and charged for as per cols. 4 and 5, and the calculations in col. 6 of the accompanying Form with the prescribed prices, that the said calculations are correct, and that the amount at foot of col. 6 (Invoice),

£ 6 15 9 paid on the 8th day of July 1907.

No. of Paying Order 174
Signed John Lynch Clerk of Union.
Date 8th of July 1907.

UNION

GENTLEMEN,

do hereby propose to supply, generally for the use of the Workhouse and several Dispensary Depots within the Union, from _____ day of _____ of _____ the Medicines contained in the Prescribed List in this Form, when ordered by the Guardians, of the best description and quality, prepared in strict accordance with the several formulae in the latest edition of the British Pharmacopoeia, and with the standards for Pharmacopoeial preparations laid down by the Local Government Board, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles mentioned herein, purchased during the year; and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And further propose to supply the Medicines by Avoirdupois Weight as hereunder mentioned; all volatile drugs to be supplied in stoppered bottles _____ also propose and agree to supply (free of charge, as hereinafter mentioned) all packages, hampers, jars, bottles (which shall be those ordinarily used in the wholesale drug trade and priced in the Schedule (p. 15), and other vessels in which the drugs and medicines are contained, and to take back such articles when empty and pay all reasonable packing and transit expenses incurred in respect of the return of such empties, and to take all risk of breakage in transit; provided however that where any such empties are not returned by the Guardians within six months from the date at which the same, containing the drugs or medicines, shall have been delivered to them _____ shall be entitled to receive payment for the same from the Guardians in accordance with the schedule of prices submitted herewith. And _____ further agree, immediately on being declared Contractor, to execute the form of Contract and Bond prescribed by the General Order of the Local Government Board for Ireland, and to obey the regulations of the said Board so far as they relate to the contract and supply of drugs.

Your obedient Servant,

Signature, { _____

Dated this _____ day of _____ 190 _____

GENTLEMEN,

Should you accept the above proposal, we hereby engage to become bound with the above-named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

Signatures of _____

Dated _____ day of _____ 190 _____

MEDICINES, 1907-8.

Combined Form of:

Local Government Board's Prescribed List of Medicines for 1907-8.

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (1.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HBLV'S LIMITED,

CONTRACTORS TO PUBLIC BODIES,

27, 28, 29, & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN.

1907.

INSTRUCTIONS

(To be strictly adhered to by all persons concerned.)

The forms are printed on *white* and on *blue* paper. The *white* is to be used *only* by the Medical Officer, and the *blue* *only* by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on *blue paper*, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer *on the same day that the articles are despatched*.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (white form) to the Clerk of the Union, retaining the other copy (blue) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. *The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.*

GENERAL.

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following *three months*, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. **Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted.** The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

N.B.—The Medical Officer may requisition the Tablets, Tabloids or Serums of any well-known manufacturer of such articles, whose name must be specified above; but only those drugs which appear in the above list can be ordered. The several drugs must be supplied in the proportions specified above. Packages must bear the original labels of the manufacturer. The Medical Officer may order serum when required direct from the Contractor by letter or telegram, but must as soon as possible submit to the Board of Guardians a formal requisition in confirmation of order, so that the account may be paid in due course and reconsumption allowed.

FORM OF TENDER.

TO THE BOARD OF GUARDIANS OF _____ UNION.

GENTLEMEN,

do hereby propose to supply punctually for the use of the Workhouse and several Dispensary Districts within the _____ Union, from _____ day of _____ to the _____ day of _____, the Medicines contained in the Prescribed List in this Form, when ordered by the Guardians, of the best description and quality, prepared in strict accordance with the several formulæ in the latest edition of the British Pharmacopœia, and with the standards for Pharmacopœial preparations laid down by the Local Government Board, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles mentioned herein, purchased during the year; and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And further propose to supply the Medicines by Avoirdupois Weight as hereunder mentioned; all volatile drugs to be supplied in stoppered bottles. _____ also propose and agree to supply (free of charge, as hereinafter mentioned) all packages, hampers, jars, bottles (which shall be those ordinarily used in the wholesale drug trade and priced in the Schedule on p. 15), and other vessels in which the drugs and medicines are contained, and to take back such articles when empty and pay all reasonable packing and transit expenses incurred in respect of the return of such empties, and to take all risk of breakage in transit; provided however that where any such empties are not returned by the Guardians within six months from the date at which the same, containing the drugs or medicines, shall have been delivered to them _____ shall be entitled to and shall receive payment for the same from the Guardians in accordance with the schedules of prices submitted herewith. And _____ further agree, immediately on being declared Contractor, to execute the form of Contract and Bond prescribed by the General Order of the Local Government Board for Ireland, and to obey the regulations of the said Board so far as they relate to the contract and supply of drugs.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____ 190 _____

GENTLEMEN,

Should you accept the above proposal, we hereby engage to become bound with the above-named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

MEDICAL

Combined Form of:—

Local Government Board's Prescribed List of 1903.

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim or demand which is directly or indirectly payable out of the poor rate shall be paid within the half-year in which the same was incurred or became due, or within the first half-year of the next year of such half-year.

EHLY'S LIMITED,

Contractors to Public Bodies,

27, 28, 29, & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN.

1907.

388

INSTRUCTIONS

(To be strictly adhered to by all persons concerned.)

The forms are printed on *white* and on *blue* paper. The *white* is to be used *only* by the Medical Officer, and the *blue* *only* by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on *blue paper*, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer *on the same day that the articles are despatched*.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (white form) to the Clerk of the Union, retaining the other copy (blue) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. *The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.*

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following *three months*, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

N.B.—The Medical Officer may requisition the Tablets, Tableoids or Serums of any well-known manufacturer of such articles, whose name must be specified above; but only those drugs which appear in the above list can be ordered. The several drugs must be supplied in the proportions specified above. Packages must bear the original labels of the manufacturer. The Medical Officer may order serum when required direct from the Contractor by letter or telegram, but must as soon as possible submit to the Board of Guardians a formal requisition in confirmation of order, so that the account may be paid in due course and recoupment allowed.

The Local Government Board for Ireland

GENTLEMEN,

do hereby propose to supply punctually for the use of the Workhouse and Dispensary Districts within the Union of _____ from _____ day of _____ to the _____ day of _____, the Medicines, &c., contained in the Prescribed List in this Form, which is ordered by the Guardians, of the best description and quality, prepared in strict accordance with the several formulae in the latest edition of the British Pharmacopoeia, and with the standards for Pharmacopoeial preparations laid down by the Local Government Board, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles mentioned herein, purchased during the year; and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And further propose to supply the Medicines by Avoirdupois Weight as hereunder mentioned; all volatile drugs to be supplied in stoppered bottles. _____ also proposes and agrees to supply (free of charge, save as hereinafter mentioned) all packages, tins, jars, bottles (which shall be of the ordinary used in the wholesale drug trade and priced in the Schedule on page 15), and other vessels in which the drugs and medicines are contained, and to take back such articles when empty, and pay all reasonable packing and transit expenses incurred in respect of the return of such empties, and to take all risk of breakage in transit; provided however that where any such empties are not returned by the Guardians within six months from the date at which the same, containing the drugs or medicines, shall have been delivered to them _____ shall be entitled to receive payment for the same from the Guardians in accordance with the Schedule of prices submitted herewith. And _____ further agrees, immediately on being declared Contractor, to execute the form of Contract and Bond prescribed by the General Order of the Local Government Board for Ireland, and to obey the regulations of the said Board so far as they relate to the contract and supply of drugs.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____ 190

GENTLEMEN,

Should you accept the above proposal, we hereby engage to become bound with the above-named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

MEDICINES, 1907-8.

Combined Form of:—

Local Government Board's Prescribed List of Medicines for 1907-8.

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

INSTRUCTIONS

(To be strictly adhered to by all persons concerned.)

The forms are printed on *white* and on *blue* paper. The *white* is to be filled in only by the Medical Officer, and the *blue* only by the Clerk of the Union, in the following manner:

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the *white* forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms, and shall transmit both documents to the Clerk of the Union. In any place where a compounder of medicines is employed, he shall prepare the requisition (in duplicate) in like manner, by filling in column 4, and shall submit the same to the Medical Officer for his signature; and the Medical Officer shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on *blue paper*, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" *white* form and also on one of the *blue* copies (retaining the second *blue* copy himself), and shall transmit the two documents (one *white* and one *blue*) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D and immediately transmit the "Original" requisition (*white* form) to the Clerk of the Union, retaining the other copy (*blue*) in the Dispensary. The compounder of medicines, and not the Medical Officer, shall check the articles, and fill in the certificate in any place in which a compounder of medicines is employed.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL.

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

In drawing up Requisitions for Medicines, the Medical Officer should only apply for quantities sufficient for use during the following *three months*, and he should not order drugs which he has not reason to think will be required. He should keep in mind that many medicines are of such a perishable nature that they deteriorate in quality, and even become inert, by long keeping.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any medicine or other article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together and entered upon the minutes of the meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be delayed entirely out of the rates.

FORM NO. 1

TO THE BOARD OF GUARDIANS OF
UNION

GENTLEMEN,

do hereby propose to supply punctually, for the use of the Workhouse and several Dispensary Districts within the Union, from _____ day of _____, to the _____ day of _____, the Medicines, &c., contained in the Prescribed List in this Form, when ordered by the Guardians, of the best description and quality, prepared in strict accordance with the several formulae in the latest edition of the British Pharmacopoeia, and with the standards for Pharmacopoeial preparations laid down by the Local Government Board, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles mentioned herein, purchased during the year; and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of cartage, or any additional charge for delivery. And further propose to supply the Medicines by Avoirdupois Weight as hereunder mentioned; all volatile drugs to be supplied in stoppered bottles. _____ also propose and agree to supply (free of charge) _____ (as hereinafter mentioned) all packages, hampers, jars, bottles (which shall be those ordinarily used in the wholesale drug trade and priced in the Schedule, p. 14), and other vessels in which the drugs and medicines are contained, and to take back such articles when empty and pay all reasonable packing and transit expenses incurred in respect of the return of such empties, and to take all risk of breakage in transit; provided however that where any such empties are not returned by the Guardians within six months from the date at which the same, containing the drugs or medicines, shall have been delivered to them _____ shall be entitled to receive payment for the same from the Guardians in accordance with the schedule of prices submitted herewith. And _____ further agree, immediately on being declared Contractor, to execute the form of Contract and Bond prescribed by the General Order of the Local Government Board for Ireland, and to observe the regulations of the said Board so far as they relate to the contract and supply of drugs.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____, 190 _____

GENTLEMEN,

Should you accept the above proposal, we hereby engage to become bound with the above-named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

**MEDICAL AND SURGICAL APPLIANCES,
1907-8.**

Combined Form of:

**Local Government Board's Prescribed List of Medical
and Surgical Appliances for 1907-8.**

Regulation of Medical Officer:

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HILLY'S LIMITED,

Contractors to Public Bodies,

27, 28, 29 & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN

1907.

INSTRUCTIONS

(To be strictly adhered to by all concerned).

The forms are printed on white and on blue paper. The white is to be used only by the Medical Officer, and the blue only by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms. He shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on blue paper, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D, and immediately transmit the "Original" requisition (white form), to the Clerk of the Union, retaining the other copy in the Dispensary.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

The Medical Officer shall preserve the instruments and appliances placed in his custody in good order, and shall also keep a complete list of all instruments provided for Dispensary use, and submit the list periodically to the Clerk of the Union for examination. In the event of his resigning or ceasing to hold office, the instruments specified on such list shall be handed over to the Clerk of the Union.

The Medical Officer shall transact the duties and business of his Dispensary District with due regard not only to efficiency, but also to economy. In case any article or articles supplied shall be considered by the Medical Officer not to be in every respect of good quality, and of the quality and sort contracted for, he shall report the facts at once to the Board of Guardians.

The Medical Officer should only requisition such articles as from his local knowledge he has reason to think will be required.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together, and should be entered on the Minutes of the Meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

P.S./B.R./124 (43)

1907-8.

FORM OF TENDER.

TO THE BOARD OF GUARDIANS OF
UNION.

I, _____ of _____ do hereby tender my services for the use of the Workhouse and several Dispensary Districts within the _____ Union, from _____ day of _____ 190____, to the _____ day of _____ 190____, the medical and surgical appliances and requisites contained in the Prescribed List in this Form, when ordered by the Guardians, of the best quality, and in accordance with the description upon the foregoing list, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent, on the gross cost of the articles purchased during the year, and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And I further agree, immediately on being declared Contractor, to execute the Form of Contract and Bond prescribed by the General Order of the Local Government Board, and to obey the regulations of the said Board so far as they relate to the contract and supply of medical and surgical appliances and requisites.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____ 190____

Should the Board accept the above proposal, we hereby engage to become bound with the _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

Signatures of _____
of _____
of _____

Dated _____ day of _____ 190____

N.B.—No person is eligible to receive a Contract for Medical and Surgical Appliances unless he is either a manufacturer or dealer in surgical instruments who satisfies the Local Government Board that he has in stock a full assortment of the Articles of the Prescribed List.

Articles marked with an asterisk* must have the name of the maker, and the name of the maker, plainly stamped upon them.

This Tender to be forwarded to the Clerk of the Union under seal, so that it may be received not later than 12 o'clock noon, on Saturday, 9th March, 1907.

FORM OF TENDER.

TO THE BOARD OF GUARDIANS OF

UNION.

GENTLEMEN,

I do hereby propose to supply punctually for the use of the Workhouse and several Dispensary Districts within the _____ day of _____, 1907, to the _____ of _____, the medical and surgical appliances and requisites contained in the Prescribed List in this Form, when ordered by the Guardians, of the best quality, and in accordance with the description upon the foregoing list, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles purchased during the year, and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And I further agree, immediately on being declared Contractor, to execute the Form of Contract and Bond prescribed by the General Order of the Local Government Board, and to obey the regulations of the said Board so far as they relate to the contract and supply of medical and surgical appliances and requisites.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____ 1907

Should you accept the above proposal, we hereby engage to become bound with the above-named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

Signatures of
of
Sureties.

of _____

Dated _____ day of _____ 1907

N.B.—No person is eligible to receive a Contract for Medical and Surgical Appliances unless he is either a manufacturer or dealer in surgical instruments who satisfies the Local Government Board that he has in stock a full assortment of the Articles on this List.

Articles in this List marked with an asterisk* must have the name of the maker, who must be of repute, plainly stamped upon them.

FORM OF TENDERS
TO THE BOARD OF GUARDIANS OF
UNION.

Contractor,

do hereby bind myself to supply punctually for the use of the _____ Dispensary Depots within the _____ Union, from _____ day of _____ to the _____ day of _____ the medical and surgical appliances and requisites contained in the Prescribed List in this Form, when ordered by the Guardians, of the best quality, and in accordance with the description upon the foregoing list, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles purchased during the year, and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And _____ hereby agrees, immediately on being declared Contractor, to execute the Form of Contract and Bond prescribed by the General Order of the Local Government Board, and to obey the regulations of the said Board so far as they relate to the contract and supply of medical and surgical appliances and requisites.

Signature

Dated this _____ day of _____ 190_____

Should you accept the above proposal, we hereby engage to become bound with the above-named _____ in the sum of £ _____ sterling for the due performance of the several matters and things contained in this Tender.

Signatures of _____
of _____
Sureties.

Dated _____ day of _____ 190_____

N.B.—No person is eligible to receive a Contract for Medical and Surgical Appliances unless he is either a manufacturer or dealer in surgical instruments who satisfies the Local Government Board that he has in stock a full assortment of the Articles on the List.

Articles in the List marked with an asterisk* must have the name of the maker, and name of the maker, plainly stamped upon them.

**MEDICAL AND SURGICAL APPLIANCES,
1907-8.**

Combined Form of:

Local Government Board's Prescribed List of Medical
and Surgical Appliances for 1907-8.

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (I.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HELY'S LIMITED,
CONTRACTORS TO PUBLIC BODIES
27, 28, 29 & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN
1907.

INSTRUCTIONS

(To be strictly adhered to by all concerned.)

The forms are printed on white and on blue paper. The white is to be used only by the Medical Officer, and the blue only by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the white forms by filling in column 4 and signing the Certificate A at the foot thereof on the two forms. He shall transmit both documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on blue paper, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" white form and also on one of the blue copies (retaining the second blue copy himself), and shall transmit the two documents (one white and one blue) to the Medical Officer on the same day that the articles are despatched.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D, and immediately transmit the "Original" requisition (white form), to the Clerk of the Union, retaining the other copy in the Dispensary.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.

GENERAL.

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

The Medical Officer shall preserve the instruments and appliances placed in his custody in good order, and shall also keep a complete list of all instruments provided for Dispensary use, and submit the list periodically to the Clerk of the Union for examination. In the event of his resigning or ceasing to hold office, the instruments specified on such list shall be handed over to the Clerk of the Union.

The Medical Officer shall transact the duties and business of his Dispensary District with due regard not only to efficiency, but also to economy. In case any article or articles supplied shall be considered by the Medical Officer not to be in every respect of good quality, and of the quality and sort contracted for, he shall report the facts at once to the Board of Guardians.

The Medical Officer should only requisition such articles as from his local knowledge he has reason to think will be required.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together, and should be entered on the Minutes of the Meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.

1907-8.

Ballinrobe UNION.

(A) I certify that the Articles stated in column 4 are required to be ordered for use in the

Workhouse (or) Dispensary District.
 Signed J. A. Baurahan Medical Officer.
 Date 2nd of September 1907.

(B) Mrs. J. J. Sumner please supply the Articles named in col. 4 of the above form.
 Approved by the Board of Guardians of Hollymount Union, this 9th day of September 1907.
 Signed Thos. Courty Presiding Chairman.
J. W. Allen Clerk of Union.

Gross Cost, £	2	12	6
Discount @ 7 1/2 per cent. £		19	8 1/2
Net Amount, £	1	12	10 1/2

(C) I have this day supplied to the
Hollymount Workhouse (or) Dispensary District.
For B. Sumner & Co. Ltd.
 the Articles named in column 5 of the above form.
 Signed J. J. Sumner Director.
 Address Hollymount
 Date 18 of Sept 1907

(D) I have carefully compared the Medical and Surgical appliances delivered at the
Hollymount Workhouse (or) Dispensary District on the 25th of September 1907.

with the quantities requisitioned and charged for as per cols. 4 and 5, and the articles set forth therein have been duly received by me, and they are of the best quality, as stipulated in the Contract. (If not, state exceptions here, and whether defect has subsequently been made good.)

Signed J. A. Baurahan Medical Officer of Hollymount Union Workhouse (or) Dispensary District.
 Date 26th of September 1907.

(E) I certify that I have carefully checked the quantities requisitioned and charged for as per cols. 4 and 5, and the calculations in col. 6 of the accompanying Form, with the Prescribed Prices, that the said calculations are correct, and that the net amount at foot of col. 6 (Invoice) £ 1 s. 12 d. 10, was paid on the 30th day of September 1907. No. of Paying Order 226

Signed John Walsh Clerk of Union.
 Date 30th of September 1907

TO THE BOARD OF GUARDIANS OF
UNION.

Contractor

To be bound to supply punctually for the use of the Workhouse and several Dispensary Districts within the Union, from _____ day of _____ 190____ to the _____ day of _____ 190____, the medical and surgical appliances and requisites contained in the Prescribed List in this Form, when ordered by the Guardians, of the best quality, and in accordance with the description upon the foregoing list, at the prices prescribed by the Local Government Board, less an abatement of _____ per cent. on the gross cost of the articles purchased during the year, and to deliver the articles at the Workhouse and respective Dispensaries and Dispensary Depots within the Union, in such quantities and at such times as the Guardians may direct, free of carriage, or any additional charge for delivery. And _____ further agree, immediately on being declared Contractor, to execute the Form of Contract and Bond prescribed by the General Order of the Local Government Board, and to obey the regulations of the said Board so far as they relate to the contract and supply of medical and surgical appliances and requisites.

Your obedient Servant,

Signature, _____

Dated this _____ day of _____ 190____

Should you accept the above proposal, we hereby engage to become bound with the above named _____ in the sum of £ _____, sterling, for the due performance of the several matters and things contained in this Tender.

Signatures of _____
of _____
Sureties. _____

Dated _____ day of _____ 190____

N.B.—No person is eligible to receive a Contract for Medical and Surgical Appliances unless he is either a manufacturer or dealer in surgical instruments who satisfies the Local Government Board that he has in stock a full assortment of the Articles on this List.

Articles in this List marked with an asterisk* must have the name of the maker, and must be of reputedly plain stamped upon them.

Combined Form of:

**Local Government Board's Prescribed List of Medical
and Surgical Appliances for 1907-8.**

Requisition of Medical Officer.

Invoice.

Tender.

The attention of Contractors and Clerks of Unions is specially directed to Sec. 51 (7) of the Local Government (Ire.) Act, 1898, which requires that every debt, claim, or demand which is directly or indirectly payable out of the poor rate, shall be paid within the half-year in which the same was incurred or became due, or within three months after the expiration of such half-year.

HILLY'S LIMITED,
Contractors to Public Bodies

27, 28, 29 & 30, DAME STREET, AND "ACME" WORKS, DAME COURT, DUBLIN
1907.

INSTRUCTIONS

(To be strictly adhered to by all concerned.)

The forms are printed on *white* and on *blue* paper. The *white* is to be used *only* by the Medical Officer, and the *blue* *only* by the Clerk of the Union, in the manner following:—

(1.) THE MEDICAL OFFICER shall make out his requisition (in duplicate) on the *white* forms by filling in column 4 and signing the Certificate A at the foot thereof on the *two* forms. He shall transmit *both* documents to the Clerk of the Union.

(2.) The CLERK, having satisfied himself that the requisition forms have been properly filled up, shall mark one copy "Original" and submit it to the Guardians; and, if approved by them, shall obtain the signature of the Presiding Chairman to the Certificate at B. He shall mark the other copy "Duplicate," and, having entered thereon the date of the Guardians' order and the name or the initials of the Presiding Chairman, shall retain it in his office for reference.

(3.) The CLERK shall then make, on *blue paper*, two copies of the "Original" requisition, and send all three documents to the Contractor.

(4.) The CONTRACTOR shall fill in and sign the "Invoice" on the "Original" *white* form and also on one of the *blue* copies (retaining the second *blue* copy himself), and shall transmit the two documents (one *white* and one *blue*) to the Medical Officer *on the same day that the articles are despatched*.

(5.) The MEDICAL OFFICER, when he has duly checked the articles received with the invoice, shall fill in the Certificate at D, and immediately transmit the "Original" requisition (*white* form), to the Clerk of the Union, retaining the other copy in the Dispensary.

(6.) The CLERK shall check the calculations as required by Certificate E, and carefully preserve the document, to be subsequently transmitted to the Local Government Board with the claim for recoupment. *The Clerk is requested to note particularly that it is the "Original" Requisition, as signed by the Medical Officer and Chairman of the Board of Guardians, which must accompany the claim for recoupment.*

GENERAL.

No erasures shall, under any circumstances, be permitted in this Form. In case it is found necessary to make an alteration in any entry, it must be done by striking out the item to be altered, and by writing above or beside it the item that is to be substituted. Alterations must be initialled in ink by the person making them.

The Medical Officer shall preserve the instruments and appliances placed in his custody in good order, and shall also keep a complete list of all instruments provided for Dispensary use, and submit the list periodically to the Clerk of the Union for examination. In the event of his resigning or ceasing to hold office, the instruments specified on such list shall be handed over to the Clerk of the Union.

The Medical Officer shall transact the duties and business of his Dispensary District with due regard not only to efficiency, but also to economy. In case any article or articles supplied shall be considered by the Medical Officer not to be in every respect of good quality, and of the quality and sort contracted for, he shall report the facts at once to the Board of Guardians.

The Medical Officer should only requisition such articles as from his local knowledge he has reason to think will be required.

This Form is only to be used in ordering Articles on the Local Government Board's Prescribed List. In the event of a Medical Officer requiring to be supplied with any article not on the Prescribed List, a separate requisition for the same must be made on a form, which should follow this Form as nearly as possible, and be dealt with in the same manner, and the requisition should state the circumstances which are considered to render it necessary, and the reason why none of the articles on the Prescribed List are suitable to the case. Detailed estimates should be furnished with each such requisition; they should be submitted together, and should be entered on the Minutes of the Meeting of the Board of Guardians at which they have been submitted. The cost of such extra articles, if procured by the Guardians, will have to be defrayed entirely out of the rates.
